Landa Illuminotecnica was founded and grew up in Lumezzane, Brescia, a thriving area of Northern Italy known for its strong business drive that, over the years, led the Company to stand out in several production and industrial sectors.

IT *Landa Illuminotecnica nasce e cresce a Lumezzane, Brescia, fiorente area del Nord Italia conosciuta per il suo forte spirito imprenditoriale che, negli anni, l'ha portata a distinguersi in diversi settori produttivi e industriali.*

who we are

Present on the light market since 1987, Landa has established itself with its wide range of outdoor luminaires for the residential sector, not only at European level but also and primarily at international level.

The entire production takes place in its plants in Lumezzane, thus allowing constant monitoring of all process steps, from conception to testing, up to the time of shipment.

The company boasts a highly qualified design team that not only manages to meet the needs of the customers, but is also committed to anticipating new needs and new trends, and assisting the customer in the post installation phase.

Over the years all this has allowed a continuous growth in what is one of the most competitive markets in the world, the lighting market.

IT *Presente sul mercato della luce dal 1987, Landa si è affermata con la sua ampia gamma di lampade da esterno per il settore residenziale, non solo su scala europea ma, in maniera preponderante, anche a livello internazionale.*

L'intera produzione avviene all'interno degli stabilimenti di Lumezzane, consentendo così un costante monitoraggio di tutte le fasi produttive, dall'ideazione al collaudo, fino al momento della spedizione.

L'azienda vanta al suo interno un'equipe di progettazione altamente qualificata che non solo riesce a soddisfare le esigenze presentate dalla clientela, ma è anche attenta ad anticipare i nuovi bisogni ed i nuovi trend del gusto, affiancando poi il cliente anche nella fase successiva all'installazione.

Tutto ciò, negli anni, ha permesso una continua crescita in quello che è uno dei mercati più competitivi al mondo, quello del lighting.

01. 1987

Landa Illuminotecnica is founded as a manufacturing company of lighting fixtures for outdoor use in the residential sector.

07. 2012-2014

Important international collaborations start. In the following three years, Germany, India and the USA are among the main players that determine the Landa's success abroad, beyond national borders.

IT *Hanno inizio le importanti collaborazioni internazionali. Nei tre anni successivi saranno, tra i player principali, Germania, India e USA a determinare il successo di Landa all'estero, al di fuori dei confini nazionali.*

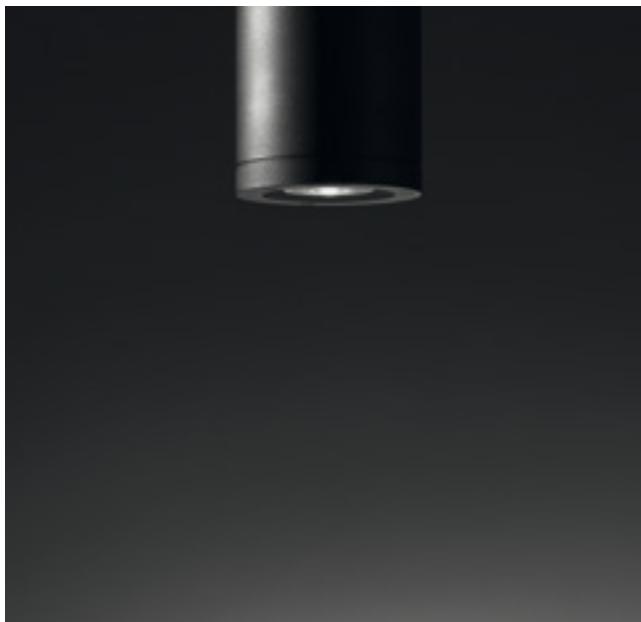

08. 2015

New completion of the range with built-in products.

IT *Nuovo completamento della gamma con prodotti da incasso.*

09. 2018

The year of awareness.

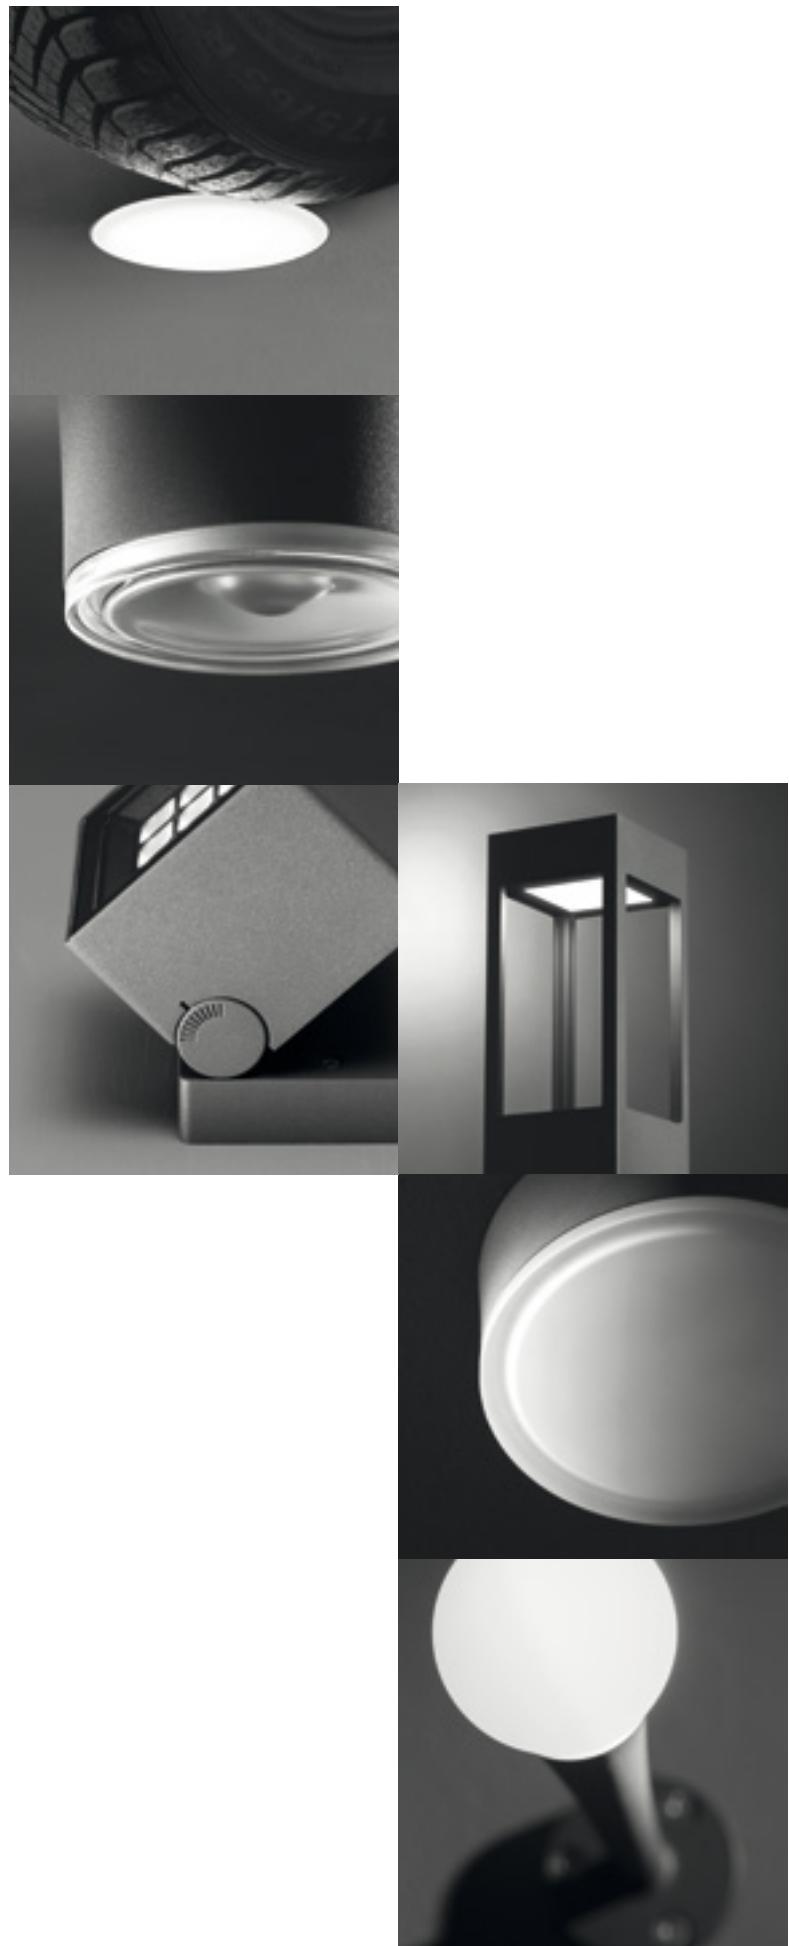

To continue to be a reference in the sector, the company vision is expanded with the inclusion of an Art Director: new products, new projects, the same trademark. Landa excellence grows and develops towards new horizons.

IT *L'anno della consapevolezza.*

Per continuare a essere un punto di riferimento nel settore, si amplia la vision dell'azienda con l'inserimento della figura di un Art Director: nuovi prodotti, nuovi progetti, stesso marchio di fabbrica. L'eccellenza Landa cresce e si sviluppa verso nuovi orizzonti.

After the rebranding which returned it, once again, to the position of protagonist on the national and international scene, [LND] opens itself to a new hybrid and spontaneous conception of co-existence, outlining a concept with a strong capacity to attract. The creation and production of light fittings incorporate and integrate these two perspectives in an organic way. So, organic lighting palettes (Nest, Firefly) are born for a developed nature, accompanying, at the same time, an engineered intellect, (Kuboid, Car-Go, Eye, Fog and I-Lantern). The range of products [LND] lives in a coherent dimension, in this way making the work of project designers and prescribers highly free. Equipped with a strong identity, they live for an outdoor dimension integrated with nature and architecture, giving volume and shape to any project requirement.

IT Dopo il rebranding che l'ha portata di nuovo a essere protagonista del panorama nazionale e internazionale, [LND] si apre a una nuova concezione ibrida e spontanea di co-esistenza, delineando un concept dalla forte capacità attrattiva. L'ideazione e la realizzazione di apparecchi illuminanti incorpora e integra in modo organico queste due prospettive. Nascono, così, per una natura potenziata tavolozze vegetali illuminate (Nest, Firefly) che si accompagnano, di pari passo, ad un intelletto ingegnerizzato (Kuboid, Car-Go, Eye, Fog e I-Lantern). La gamma di prodotti [LND] vive in una dimensione coerente, rendendo così altamente libero il lavoro dei progettisti e dei prescrittori. Dotati di una forte identità, vivono per un outdoor integrato con la natura e l'architettura, dando volume e forma a qualsiasi esigenza progettuale.

[LND] reinterprets its own philosophy, transforming outdoor aesthetics into unexpected and charming ways.

Efficiency and performance, imperative and steadfast aspects in the company's production, are now part of a transversal thought that turns to the decorative and contemplates the inimitable authenticity of Nature.

This is how the **collection** was born. **Unexpected**. A story that narrates, made of discrete geometries and lighting accents, that are **protagonists of an organic dialogue** with the surrounding world. The new Landa lighting chapter rediscovers a dreamlike dimension, opening itself to visions that can make **matter live in synergy with the spirit of Nature**.

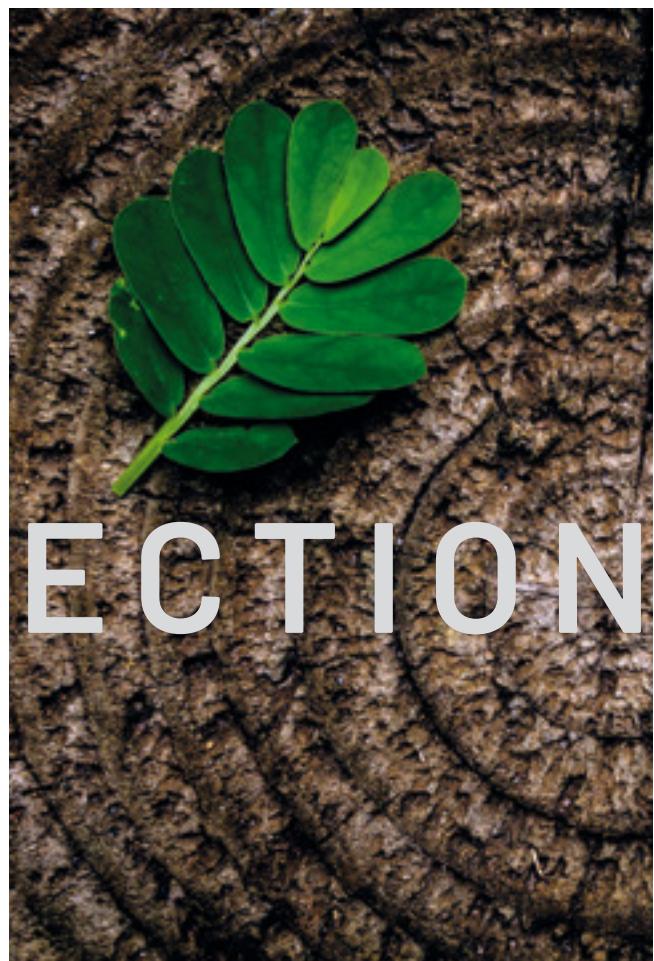

IT [LND] reinterpreta la propria filosofia, trasformando l'estetica outdoor in modi inattesi e suggestivi.

L'efficienza e la performance, imperativi saldi nella produzione dell'azienda, sono ora parte di un pensiero trasversale che volge al decorativo e che contempla l'inimitabile autenticità della Natura.

Nasce, così, la **collezione Unexpected**. Una storia da raccontare fatta di geometrie discrete e accenti luminosi, che sono **protagonisti di un dialogo organico** con il mondo circostante. Il nuovo capitolo dell'illuminazione [LND] riscopre una dimensione onirica, aprendosi a visioni capaci di far vivere la materia in sinergia con lo spirito della Natura.

UNEXPECTED

&CO / COLLECTION

&CO/LLECTION is the new range of products made in [LND].

They originate from the wish to **find a new place for light in its natural environment: nature**. With awareness, we have maintained all the bio-aspect features of the materials to be able to give you a new anthology of organic light.

It is for this very reason that, in this collection, you will never find aesthetically perfect products, with an icy cold, industrial look. For this reason we have taken the names of this collection from the Cactus family. The beauty of this variety of plants is that although they are all very similar, due to their thorns, aesthetic conformation and properties, they are always different from each other in shape and size.

Uniqueness in diversity has been our design leitmotiv.

IT &CO/LLECTION è la nuova gamma di prodotti made in [LND].

Nasce dalla volontà di **ri-collocare la luce nel suo ambiente naturale: la natura**. Con coscienza, abbiamo mantenuto tutte le caratteristiche di bio-aspetto dei materiali per potervi dare una nuova antologia di luce organica.

Proprio per questo motivo non troverete mai, in questa collezione, prodotti esteticamente perfetti, dall'aspetto algido e industriale. Per questo motivo abbiamo preso a piene mani i nomi di questa collezione dalla famiglia delle Cactacee. Il bello di queste varietà di piante è che pur essendo tutte molto simili, per via delle spine, della conformazione estetica e delle proprietà, sono sempre diverse l'una dall'altra per forma e dimensioni.

L'unicità nella diversità è stato il nostro leitmotiv di progettazione.

Il **vetro temperato** dallo spessore minimo di 6 mm garantisce la massima **resistenza agli urti** e ad eventuali atti vandalici con una resistenza meccanica adeguata al tipo di applicazione.

Duration over time

Aluminum structures perfect for outdoor applications; Landa luminaires **resist oxidation through specific treatments** specially developed in its own research laboratories, **respecting the environment** and **guaranteeing an ever increasing duration over time.** This allows **minimizing maintenance operations** during the luminaire life.

IT Strutture in alluminio perfette per le applicazioni outdoor; gli apparecchi Landa **resistono all'ossidazione attraverso degli specifici trattamenti** appositamente messi a punto nei propri laboratori di ricerca, **rispettando l'ambiente** e **garantendo una sempre maggiore durata nel tempo.** Solo in questo modo si possono ridurre al minimo gli **interventi di manutenzione** durante la vita dell'apparecchio illuminante.

light control & the perfect beam

Advanced LED technology, precise and technological light means perfect light.

The luminaires offer a very wide range of optics for any application and type of installation. Luminaires with wide, flood and spot beams or asymmetrical optics, and a complete range of ground poles ideal for any type of lighting.

For each environment, the most appropriate light.

IT *Tecnologia LED avanzata, una luce precisa e tecnologica: una luce perfetta.*

Gli apparecchi presentano una gamma ampissima di ottiche per ogni applicazione e tipologia di installazione. Apparecchi dai fasci wide, flood e spot, o asimmetrici e una completa gamma di pali da terra ideali per ogni tipo di illuminazione.

Ad ogni ambiente, la luce più adeguata.

A reasoned lighting able to dialogue with the day, the night and with the chromatic changes of natural light.

The possibility of controlling and managing these variations in an intelligent way is an essential feature for the interior and even more so for the exterior, a space where artificial and natural light are in continuous dialogue and contrast.

IT *Un'illuminazione ragionata, in grado di dialogare con il giorno, la notte e con i cambiamenti cromatici della luce naturale.*

La possibilità di controllare e gestire in modo intelligente queste variazioni è una caratteristica imprescindibile, all'interno di un ambiente, e lo è ancora di più all'esterno, spazio dove luce artificiale e naturale sono in continuo dialogo e contrasto.

terms & conditions

555

GENERAL

Buyer means the person, firm or company who purchases Goods from the company.
Company means Landa Illuminotecnica S.p.A.. via Rosmini 13/15, 25065 Lumezzane (BS), Italy.
Contract means the Contract between the Buyer and the Company for the sale and purchase of Goods.
Goods means the Goods which the Company is to supply in accordance with these conditions.

BASIC OF SALE

The Company shall sell and the Buyer shall purchase the Goods in accordance with these conditions, which shall govern the Contract to the exclusion of any other terms and conditions which the Buyer purports to apply under any purchase order, confirmation order, specification or other document.
No variation to these conditions shall be binding unless agreed in writing by the Company.
Any typographical, clerical or other error or omission in any sales literature, quotation, price list, acceptance of offer, invoice or other document or information issued by the Company shall be subject to correction without liability on the part of the Company.
Goods supplied may vary in detail from illustrations, drawings, measurements and descriptions set out in the Company sales literature, which are approximate and for guidance only and will not form part of the Contract. Colour finishes will be maintained as accurately as possible but matching cannot be guaranteed. All terminology used in the Company's sales literature is subject to these conditions.

ORDERS

No order submitted by the Buyer shall be deemed accepted by the Company unless and until confirmed in writing by the Company
The Buyer shall be responsible to the Company for ensuring the accuracy of the terms of any order submitted by the Buyer, and for giving the Company any necessary information relating the Goods within a sufficient time to enable Company to perform the Contract in accordance with its terms.
No Goods may be returned to the Company without the Company's prior written consent and must be returned in their original packaging to ensure no damage is sustained during transit. The Buyer shall be liable for the cost of returning the Goods and for any damage to the Goods prior to receipt by the Company of such returned Goods.

PRICE OF GOODS

The price of the Goods shall be the price listed in the Company's published price list in EURO currency.
Unless otherwise agreed in writing between the Buyer and the Company, all prices are given by the Company on an ex-works basis, and where the Company agrees to deliver the Goods otherwise than at the Company's premises. The Buyer shall be liable to pay the Company's charges for transport.

WARRANTIES

Outdoor lighting fixtures are guaranteed against defects in material or workmanship for a period of two years following the date of delivery ex-works.
No warranty is granted in connection with faults resulting from improper use, application, normal wear and tear, external influences or use of non-original replacements parts, damage resulting from transportation.
The Company recommends that the installation of outdoor lighting fixtures is made by skilful person and that the enclosed assembly instructions are followed and kept for further future maintenance.
The Company will not assume responsibility for corrosion or other resulting damage to the Goods where they are installed in areas in which fertilizer or salt are present, either in the air or in the soil or where Goods are installed near to chemical plants etc with emissions of heavily polluted air.
The Buyer undertakes to inform his customers about the regular maintenance of the products. In particular for the products in stainless steel AISI 316, by means of the technical sheets included in his catalogue, the distributor will inform his customer regarding the specific products (among which also those available from the Company aimed to remove possible colour spots) liable to keep the features of the products unaltered. Claims should be promptly submitted in a written form to the Company together with copy of the purchase invoice and stating the delivery date, description of the faults and quantity of faulty products. Products that are proved to be defective in material or workmanship will be repaired, replaced by the Company within a reasonable period after the claim. Returns of faulty Goods will be accepted by the Company only upon written authorization, adequately despatched and packed with transport prepaid. Extra costs borne by the Buyer in consequence of the faults of the products will not be carried by the Company, if not previously agreed in written form.
The Company will not assume any responsibility in the following cases:
improper assembly, use or maintenance of the products and their incorrect conservation.
This guarantee shall not apply to products that have been altered, improperly used or installed or repaired without prior written authorization from the Company. If quality and performance have become less due to the application of accessories not approved by the Company. This guarantee deletes and replaces any other further responsibility arisen from the products supplied; in particular the Buyer shall have no right to claim for damages reimbursement (indirect or consequent damages included or profit losses) reduction of prices or resolution of the Contract.
